Sir Sly

FVC: Band Overview

One of our favorite played artists right now with the new album out, 'Don't You Worry Honey', the trio's vibes make you want to sing and dance due to their slyness, smooth yet funky, maybe you should just take a listen… The genre-breaking sonic creations by Sir Sly result in the so called, sub-genre.. To give you more insight, "Altar" reminds me of the melodic Channel Orange mixed with some rockin' Cherubmusic. Mixes of familiar sound waves combine from rock to RnB feels, crazy fantasized collaborations go down in my head when I listen to these guys work together and I cannot wait to hear what else they may come up with. The brilliant lyrics are made of up of struggle and passion, raw yet simple played along side beautiful up-beat harmonies giving the songs a liberating anthem-like feel and the stories a sense of peace. The music is labeled as alternative rock, indie pop, and psychedelic rock? SO basically they are a part of the new sound wave creating what we believe are some never heard before melodies, harmonies, and rhythms for only the people's ears of today. What I am trying to say is their is nobody like them..Ladies and Gentlemen, Sir Sly. YOU CAN'T MISS OUT!
